WILL CALL MASS MEETING TO DISCUSS THE SEWER

West Indianapolis Commercial Club Against the Works Board's Plans.

ATTITUDE OF CITIZENS

Citizens of West Indianapolis have asked for an extension of time on the final action relative to the West Indianapolis sewer. It is said that the sewer will be fought and the additional time is wanted to prepare an effective remonstrance. Ninety per cent. of the people of West Indianapolis, it is said, are opposed to a sewer system of any kind.

At last night's meeting of the West Indianapolis Commercial Club, a resolution was adopted asking the Board of Works to delay final action for at least thirty days from the date set for a final hearing, which is Friday, June 10. Several members expressed themselves as believing that West Indianapolis people do not want a sewer.

To ascertain public opinion in West Indianapolis the club decided to call a mass meeting this week, at which City Engineer Jeup will be asked to explain the plan of the proposed sewer. A committee of three was appointed to set the date for the meeting.

L. S. Morgan, who was sent by the club to Carroll, Ill., to inspect the sewerage system there with a view to adopting a similar system for West Indianapolis, reported. He said the sewerage system in Carroll is provided with a number of pumping stations, and that in times of high floods the surplus water can be pumped from the mains without overflowing the surrounding territory. Mr. Morgan and many members of the club were of opinion that if a pumping station is placed at the end of the proposed West Indianapolis sewer the danger of overflows will be obviated.

The Commercial Club, however, refrained from taking any action. It desires to represent the people of West Indianapolis and will not act until their ideas can be carried out.

LOSES ONE HUSBAND; ACQUIRES ANOTHER

Charles Moore and Nellie Rogers

Married After Many Tribulations.

After many tribulations, stretching over a period of two years, Charles Moore, twenty-two, until recently an employee of the Topp Hygienic Milk Company, and Nellie Rogers, who prior to the first of the month, was the wife of Arthur Rogers, lived at 338 Carroll avenue, were married last night at the home of Justice Snook. The parties had known each other for two years, but only the action of the court on Wednesday, made their union possible.

Mrs. Moore's husband was granted a divorce from her on last Wednesday, and had been the intention of the court to grant to secure a license on the same day—the first of June—due to an unavoidable delay, could not do so.

The young couple desired to keep the matter quiet in order to surprise the groom's parents, who live in Statesville, N. C., to which place it is the intention of the young couple to go for their future home. They will start for North Carolina today.

MAYOR HOLTZMAN SOUNDS WARNING NOTE

(CONCLUDED FROM FIRST PAGE.)

but the board made arrangements yesterday whereby Dr. Ferguson will be supplied with all necessary apparatus for the examination of the water. He will begin his bacteriological tests at once.

The board has instructed him to make tests of well water from different parts of the city, especially at homes in which there is typhoid, in order to determine the condition of the city water. By this means the sources of the disease can be located. The board will all its time to the typhoid situation. It provided assistants for Dr. Ferguson and additional inspectors for the health office.

MAYOR'S IDEAS.

Mayor Holtzman in his statement yesterday advised the greatest care on the part of the people to avoid contracting the disease. He believes that the people themselves can be the greatest factor in preventing the spread of typhoid. By drinking only boiled water and by keeping their homes and their neighborhoods clean and in a sanitary condition, he believes the epidemic can soon be stopped.

He has instructed the Board of Health to make every effort possible to suppress typhoid, and declares that all ordinances and laws regarding sanitary conditions will be enforced more strictly than ever before. Mayor Holtzman, however, fears that there will be another outbreak of sickness as a result of the unsanitary condition of the city.

Most of the sewers emptying into the stream are obstructed and the ordinance providing for the appropriation of money to the city for the purpose of cleaning the stream is being pushed in the City Council.

Dr. Ferguson said last night that he will begin his bacteriological tests of the water samples of water to-morrow. It will take him two or three days to complete the investigation. By the action of the Board of Health yesterday Dr. Ferguson is empowered with all the jurisdiction of the regular city sanitarian. Dr. Speer, who is in the East taking his vacation, Dr. Ferguson said that he will do everything that can be done to block the spread of the typhoid.

"I don't hardly believe the situation will grow much worse," said Dr. Ferguson last night. "Most of the people have taken the precaution to boil their drinking water and as a result I believe there will be a falling off in the number of cases."

TALKING SCALE COMPANY HAS BEEN INCORPORATED

Slot Machine That Calls Out One's Weight on Principle of the Phonograph.

The American Talking Machine Company of Indiana, with headquarters in Indianapolis, filed articles of incorporation with the secretary of the State of Indiana yesterday. The talking scale is one of the latest novelties placed before the Indianapolis public. The machine is a weighing device, into which nickels are dropped by the prospective customer, and a peculiarly intricate mechanism is started which speaks out the correct weight, on the phonograph principle. The only one of these machines west of New York is now on exhibition at the Claypool Hotel bar.

The local company is capitalized at \$24,000, and Franklin W. Hays, E. J. Robinson and H. M. Shearer are named as directors.

The Hauptstadt Bank, of Hauptstadt, capitalized at \$25,000, with Alois Ziliak, president, and Theobald Farthing, cashier, also filed articles of incorporation yesterday.

Have You Ordered Your Winter's Coat?

If not, just allow me to inform you that I am now in the city with the City Ice and Coal Company, 324 West Maryland street. I shall take the pleasure to call on you and talk over with you the merits of the firm I represent has made its reputation through strictly business dealings, giving full weight and the best quality of coal and wood at lowest market prices.

THREE SETS OF PLANS FOR THE ARMY POST BUILDINGS

Col. George Ruhlen Says the Work of Inspection Is Progressing Finely.

VIGOROUS PROTEST MADE

Col. George Ruhlen, chairman of the new army post board, reported last night that the inspection of the site was progressing favorably. Plans have been laid out for the entire group of forty buildings on the land directly northwest of the cemetery. These plans will have to be modified to a considerable extent, and it is probable that two more sets of plans will be submitted for the approval of the War Department.

Colonel Ruhlen said that it was very hard and uncertain work. "So many things have to be taken into consideration," he said. "We must make certain buildings of certain sizes fit in certain places. To figure out just the right relation that each of these forty buildings should have to one another, is like working out a Chinese puzzle. Some of the buildings for which we must plan today will cost over \$60,000. It is probable that work will be continued on these buildings before winter opens, and by the fall of 1905 they should be completed."

"What I am most worried about now is not the location of the buildings, but the transportation facilities. As I have said before, the 35 cents charged for a round trip to the post is an outrageous fee, and the 100 workmen we have stationed at the post will be unable to pay it."

"I hope to finish my work in this city by Wednesday night so that I may leave for Dubuque, Ia., on Thursday, where I am to inspect a site for a cavalry post."

MR. DUNN WILL HELP TEST THE ORDINANCE

Thirty-One Druggists and Grocers Have Already Taken Out Licenses.

As the result of one week's enforcement of the new Davis liquor ordinance the city coffers have been enriched to the amount of \$100. Since Tuesday, thirty-one of the 300 licenses have been taken out by various druggists and grocers of the city. Heretofore these places did not pay a cent for the privilege of selling liquor, so that the revenue from the ordinance is clear money.

Most of those who have taken out the liquor licenses have done so under protest, hoping that someone will carry the legal fight of the ordinance into the courts and have it decided. City Controller Dunn is anxious for this to be done, and he leaves the talk about it a good deal of a bluff. He said that he will be glad to leave the case about it to the courts, and will make it possible to do so easily if the ordinance is carried out.

Mr. Dunn believes that the ordinance should be tested once and for all that all controversy may subside.

WILLIAM KRIEGER UNDER SUSPICION

William Krieger, 1001 South West street, a thirteen-year-old boy, was found yesterday in possession of several articles of jewelry missing from homes where he had been working as a plumber's assistant. Detectives Hauser and Larsh, in their investigation, learned that in nearly every case where the thefts had been reported plumbers had been working in the house. Suspicion finally centered upon Krieger, who partially acknowledged his wrong doing after a long fight with his police captors. A ring taken from the home of Mrs. Gruelle, 1137 Villa avenue, was recovered. The boy also has in his possession a diamond ring and five valuable souvenir spoons, stolen from the home of Miss Edith Nubacher, 1520 East Market street.

SURPRISE ARRANGED FOR GEORGE LOCKWOOD

When George Lockwood, secretary to the Governor, enters his office in the Governor's suite to-morrow morning he will be agreeably surprised at the presence of a brand-new matting on the floor, taking the place of the much-worn blue velvet matting yesterday, cast a dreary, forbidding gloom over the entire apartment. "Going to be a surprise," said the boy, "and I am sure it will be a very good one," remarked Colonel Huffman.

All the party that accompanied Governor Dues to St. Louis for the dedication of the Indiana building will arrive home shortly before noon to-day.

For the Foundrymen.

Arrangements have been made for the social features of the entertainment which the Commercial Club and the Local Foundry Foremen's Association have prepared for the American Foundrymen's Association's convention here this week. It will consist of a smoker and a dinner to be given in the assembly hall of the Claypool Hotel. "Stunts" by well-known local impersonators and selections by the boy orchestra, Morris Hamilton, will form the most interesting part of the programme.

Christian Missionary Alliance.

The Christian Missionary Alliance held a meeting yesterday afternoon at the Gospel Tabernacle. The purpose of the meeting was to complete the arrangements for the sixth annual state convention, which will be held at the Second Presbyterian Church. The three sessions to-day are the regular morning session at 10:45, a children's meeting at 5 o'clock and the evening service at 7:45.

COLORED MAN STABBED IN ROW OVER POOL GAME

Henry Ousley Taken to the Hospital and His Assailant Placed Under Arrest.

TACTICS OF THE LATTER

A heated argument over a game of pool was the cause of Henry Ousley, a negro living at 708 Torbett street, receiving a very severe knife wound in the side last night. Ousley was playing pool with Bert Black in Simpson's saloon at West and Fourteenth streets. An argument arose and Black cut Ousley in the side.

Black made his escape and could not be found for some time. About 10:30 Patrolmen Lee, Rankin and Tyler found him on Indiana avenue. In the interval between the cutting and arrest, he had been home and changed his clothes.

Instead of a stylish, dapper-looking negro the officers expected to arrest, they found a man dressed in the cheapest of clothes. It is supposed that he thought he could disguise himself and get out of the city.

The City Dispensary ambulance, in charge of Dr. Hoover, removed Ousley to the City Hospital, where it was found that he had a very bad wound. Ousley had only been in the city about four weeks, coming here from Owensville, Ky. Black lives at 549 West Twelfth street. Black was later taken to the hospital, where Ousley identified him.

At an early hour this morning the physicians of the City Hospital expressed much doubt about Ousley's recovery. The knife used had a blade about three inches long which punctured the large intestine. Patrolmen Lee, Rankin and Tyler placed Fred Marber, a negro living on West Fourteenth street, under arrest this morning, as it is thought he was implicated in the fight. He was charged with carrying concealed weapons and loitering. His bond was fixed at \$50.
